Interest Level: Ages 4-8

Proficiency Level: Emerging and up

Summary: This book shows the magic of the tradition of Christmas Eve for children everywhere. After a young girl writes her letter to Santa and heads to sleep, the reader is taken through the magical journey that Santa must go through to get presents to all children on Christmas Eve, even those with no chimneys in their houses. From a little fairy collecting Santa’s letters and finding the door key for the houses to using candles off the tree for light, Peter Collington doesn’t miss a detail of Santa’s Journey on Christmas Eve.

Use with ELL students: This is a good book to use with ELL students because many children all over the world don’t have a chimney in their house, but do celebrate Christmas. No matter what a student’s “Santa” looks like, it is still interesting to see how Santa gets into the homes with no chimneys on Christmas Eve. However, there may also be a large group of students who do no celebrate Christmas so it is important to be sensitive to this issue as well.

- **ISBN-10:** 0679871683
- **Availability:** Paperback or Hardcover

**Summary:** Have you ever wondered what the Tooth Fairy does with all of the teeth she collects? This book gives you an insight to that very question. Through his vibrant illustration, Peter Collington brings the reader on the Tooth Fairy’s journey for one evening. It begins with a tradition many children are familiar with after losing a tooth. The tooth fairy sneaks into their bedroom while they are asleep to exchange a perfect silver coin for every tooth she collects. Then, after all the collecting is finished she transforms all of the teeth she has collected into a new ivory key for her broken piano.

**Use with ELL students:** ELL would enjoy this book because every child will lose their baby teeth eventually. Even if the Tooth Fairy is not a tradition in their culture, it is still an entertaining book to see what the Tooth Fairy does with all the teeth she collects.

- **Summary:** A story about a little boy who wishes Santa’s elves would take a break from helping Santa and come help him with his chores instead. The boy soon realizes that sometimes it is easier to just do what you’re asked to do on your own, as the elves are getting in the way more than they are helping. Keeping with Christmas tradition, Santa is super busy trying to get things ready for Christmas by making toys and getting gifts together. With the elves not around, Santa soon realizes he could really use the elves back at the North Pole to help him get ready to deliver gifts on Christmas Eve!
- **Use with ELL students:** This book is good for every student. Christmas is celebrated in many cultures around the world, so this would be an easy topic for students to connect with. Also, it teachers students common phrases like “Let’s go”, “Time to go”, “uh-oh”, along with many other phrases that will be helpful for ELL students.

Tradition: Christmas

ISBN-10: 1585364479

Availability: Hardcover, Electronic

Interest Level: Ages 4-8

Proficiency Level: Developing and up

Summary: At the opening of this nearly wordless picture book, a girl name Sammy is fulfilling a timeless Christmas tradition by writing a letter to Santa telling him what she wants for Christmas. However, the letter isn’t done yet so we can’t see what she is asking for. As you continue reading you see three different sized boxes under her Christmas tree, a small one, a medium one, and a large one. One by one she opens the boxes to reveal a small cat, a medium sized dog, and a large pony. The story continues on to show her playing with all of them.

Use with ELL students: This book is a good opportunity to discuss sizes (small, medium, and large) with ELL students. Since three different size packages arrive to the girl in the story, students would be able to take guesses as to what might be in the packages before they continue reading. Once they see what is actually inside the box, this will validate what they thought the sizes small, medium, and large were.

- **Summary**: This is a unique book as the only words in the book are the days of the week. It starts on a Tuesday showing a boy watching a baseball game from a park bench with some older men, but he is too shy to go over and join the game. On Wednesday, the boy is seen on the same bench again and the same men from Tuesday seem to wonder why he is back. On Thursday, the boy returns for a third time to the bench, this time dressed like the old men were dressed (grey hair and all). On Friday and Saturday when the boy returns to the bench the men are not there, instead they are seen playing on the playground. On Sunday, the boy once again goes to the park and this time the men leave baseball equipment on the bench and go off to play. The boy takes the baseball equipment and finally has the courage to go play baseball with the other kids in the neighborhood.
