**Socio-cultural implications of implementing these standards/Unit**

**Socio-Cultural Implications of the Standards**

- Many of our ELs cannot read grade level literary or informational texts in English to do this analysis. We will have to carefully choose texts to make working toward meeting this standard accessible.
- We will have to craft comprehension questions with sentence starters to help students prove they understand what they read.
- We have to choose texts that lend themselves to theme as read alouds
- Consider addressing author’s craft at a later time (depending on proficiency levels)
- Design graphic organizers around cause and effect to introduce claims

• Teach our students how to work collaboratively with partners or groups
• Lots of vocabulary development is necessary
• Careful choice in text selection based on proficiency level
• Consider Can Do's for writing tasks, answering simple questions to constructed response questions

CCSSs Written in Accessible Language for Students

CCSSs in student friendly language that can be posted in the classroom during Unit instruction

• We will be reading many texts over the next few weeks and proving that we understand the texts by answering questions correctly.
• We will discuss how authors tell us about the theme or topic of the books they write
• We will prove that our answers are correct by using information from the texts.
• We will work as partners or in small groups to talk about the texts that we read.
• We will learn how to use parallel structure in our writing
